The voime Republic is going on prospering and Sprosper. We see it stated in the last accounts that Gen. James Hamilton and Gev. Butler, of South Carolina, and Hon. Joseph M. White of Florida, now on a - Line and the second visit to the country have expressed their determination to settle there.

A friend has favored us with the following account of the origin of the name of the country, obtained he tells us, from a citizen who has resided there for thirty years -

"When Cortery was exploring the different parts of his grand conquest, a company of about 75 men had penetrated as far as Rio Grande, and on the Texas side, met a new tribe of Indians, who all pronounced the word Teh-as, as a salutation, which means in their dialect "Friendly,, or, We are friends." The Mexicans spell it Tejas, and the j sounding as h would pronounce it Tehas, as the Spaniards and Mexicans pronounce it to this day. Formerly the letter z in the Spanish Language, and in some cases yet, had the sound of h, and the letter x was always employed to spell Texas until the Edict of the Royal Academy of Sciences at Madrid, setting aside the use of the letter x altogether, and introducing the letter j in its stead. The word Mexico is now spelt by all the learned of Spain, Mejico and is properly pronounced Mehico."

We reduce our quotations, in conformity to the opinions expressed by both buyers and sellers, 3-4 c. below those of last week. We estimate the sales at about 7 to 10,000 bales. The imports of the week amount to 14,048 bales, and the exparts of the same time to 16,274 bales, making a reduction in stock of 2,226 bales, and leaving on hand, including all on ship-board not cleared on the 11th instant, a stock of 139,755 bales.

SUGAR .- The Sugar Market has presented a more animated appearance during last week than for some time past, and the operations have been rather extensive for this season of the year. The quality of the principal part now arriving is inferior to fair, and choice Sugars are getting scarce. We have heard of some sales as low as 4 a 4.1-2 cents per lb., but continue our quotations at 5 a 6 1-2, the qualities commanding those prices forming the principal part of the arrivals. The exports during the week amount to 795 hhds. 65 bbls. The total exports since 1st Oct. amount to 22,034 hhds. 1999 bbls. Same time last year, 21,388 hhds. 2,969 bbls.

MOLASSES .- The demand continues good, and principally for export, this week. We continue our former quotations, 30 a 31 cents per gallon, but the high rate has ruled in almost all instances since our last notices Governors of Maine and New Brunswick, Since the 1st October last, the total exports
