to the securities. Practical utility is the watch-cry of the day. The literature of the age is miscellaneous and republican, and demands condensation, force, nerve and point, to accomplish its legitimate object. It demands vigorous, fearless, profound thought, draped in a style of expression distinguished rather for classic serenity and conciseness, than for ornate elaborateness and grace.

We will of course contribute to the columns of the News-Letter whatever we can consistently with our other engagements, but we could not fulfil our design to make it every way worthy of extensive patronage without engaging the services of an editor. Mr E. Flagg, who takes charge of it, is perhaps not known to most of our readers. He is a most accomplished and beautiful writer, the author of various tales, essays and sketches of western scenery, which, though published only in a fugitive form, have been extensively copied and read, and have received the highest admiration. He is at this time superintending in New York, the publication of his tour through the West, for which, having read some of the manuscript, we predict a brilliant success. We shall commence the publication of the News-Letter as soon as a sufficient number of subscribers shall be obtained.

The "Western Literary News-Letter" is designed to be issued weekly upon a sheet in quarto form, executed in a style and on type and material not inferior to other periodicals of a similar character.

TERMS:—Three dollars in advance; three dollars and fifty cents at the expiration of six months and four dollars at the end of the year.
