

HOLLY SPRINGS, AUGUST 14.

We are authorized to announce JNO W. HERNDON as a candidate for Major General, to fill the vacancy occasioned by the death of Gen. Cherry.

In our last we mentioned that we had heard that some Extra Globes were sent to this Office marked "Free," we have since learned that a gentleman who had received the papers, happened to be in the office—stamped with the Post Office Type, the word "Free" and afterwards showed it to our informant, hence, originated the report, we presume.

It is stated that the Hon. H. Clay, and several other distinguished gentlemen are on their way to Nashville, to attend the great South Western Convention.

"THE DISTINGUISHED ELECTOR."

This gentleman, as was expected, made his appearance at the Great Line Festival, and failing to give his disquisition on the all important subject of Coonery, betrayed much mortification and chagrin. But when the thunder and earthquake lumbered forth from 5000 Freemen he quailed and grinned "most horribly a ghastly smile," turned pale as though he would give up the ghost. Never did this knight of the "Coontan" receive such a shock; he called his caucus—what was to be done? It won't do to attempt to speak, for certain defeat would await an effort. Oh we have got it, let's have a Festival of our own; well a festival we'll have. But stop says another thin Cassius looking fellow; "If we don't have a Union Meeting of Whigs and Democrats both, I be cursed if we ever get a crowd large enough to say grace over."

We have frequently heard complaints from the Physicians of stagnant Pools of water, almost in the heart of our Town. We do not know what our corporate authorities are about. Recent events show we ought to do something towards ameliorating the health of Holly Springs.

An affray took place at Somerville, Tenn., on Tuesday the 4th, between Levin H. Coe, the Van Buren candidate for elector, and Phineas T. Scruggs Esq., in which the latter was shot through the body. We do not know who is to blame,—but it seems to us rather cruel to shoot a man while he is held and rendered incapable of doing mischief. We learn that Mr. Scruggs raised a chair to strike Coe, some person present caught the chair and held it; while in that situation, Coe shot him. An investigation was had, and the prisoner discharged, in consequence of the court not agreeing, or rather divided in their opinion, it being composed of 2 magistrates. What an awful state of things we have arrived at. Presidential Electors canvassing the country with Pistols and other deadly weapons. Van Buren and his party by their encouragement and example have almost prostrated the morals of the coun-

A VOICE FROM ALABAMA
READ!! READ!!
We have heard only from one precinct of Yorkville, in the county of Pickens, and the result is most glorious.
The following is the state of the vote:
(W.)
McGill 130
Spruell 129
Peterson 126
Being a Whig majority of nearly two to one. At this precinct last year (1839) Ellis (Van.) beat Crabb (W.) eleven votes. Verily the people are rising in their majesty.
