### BRITISH INTELLIGENCE.

Dan'l. O'Connell the great Irish "agitator" gives us the following information which we have no doubt is about as much as he knows about the situation of the Negroes of the United States, in his speech at the Abolition Convention held lately in London, he says:—

"It seemed that the two States Virginia and Maryland sent 70,000 or 80,000 slaves a year to the South, where being employed in the cotton manufacture up to the middle in water, under a burning sun, a generation was destroyed once in seven years."

The Locofocos have lately got into the habit by way of decision, of calling the opponents of such characters as Van Buren, Kendall, Blair, and a few other marauders upon public liberty and morals. "British Whigs," we present for their information a short catalogue of worthies whom we would denominate as "British Tories," we, however, do not do so by way of retaliation, but simply because we believe they are Tories and Traitors to the best interest of the American people, their acts have shown it conclusively—read:

1. **MARTIN VAN BUREN** opposed the late war by every means and influence in his power, until the defeat of his party, which he then deserted and basely, basely turned the vipers fang upon the man who had nursed him into political being—Clinton!
2. **R. B. TANEY**, a federalist, who previous to Jackson's election, was notorious for his support of the Federal doctrines and his opposition to every democratic candidate for the Presidency!
3. **J. H. PRENTISS**, a bosom friend of Mr. Van Buren, who assisted in burning in effigy James Madison, the bayonet of democracy!
4. **HENRY HUBBARD**, another, who assisted in a similar scene in Maine.
5. **JAMES BUCHANNAN**, a parallel with Mr. Taney, in his uniform opposition to democracy.
6. **CHARLES J. INGERSOLL**, who declared that "had he been capable of reason during the Revolution, he would have been a Tory." This is the man who proved his democracy by attempting to cheat the people.

Very respectfully,  
Your obedient Servant  
**M. VAN BUREN**

To Messrs. W. Fithian, J. C. Alexander and others.

The truth is Mr. Van Buren made a speech and voted against the preemption law in 1827 and 1828. Gen. Harrison voted at the same time in 1828, in favor of the preemption law, which we can show from the Journals of the Senate of that year.

### TALENTS

There is a Schoolmaster not a thousand miles from Waterford, who really believes that Gen. Harrison did vote to sell poor white men for debt. He is a pretty blossom to "teach the younger idea how to shoot," he will get to be a professor in some great Institution about as soon as the Democratic hard money candidate for the Senate, from this county, will get into the Legislature, which is quite remote from probability.

The notorious swindler, Dr. Hines, has been convicted of negro steeling in New Orleans and sentenced to fourteen years imprisonment at hard labor in the penitentiary at Baton Rouge.

Gen. Thos. Hines of Jefferson county died from the rupture of a blood vessel on the 23d ult. He was one of the candidates on the Democratic Electoral ticket for this State.

Who will fill the vacancy on the Van Buren Ticket occasioned by the death of Gen. Hines? We guess either Dr. Hagan or the redoubtable Hero of Mississippi, who, Col. Russell says, "could not help trembling off his pistol while pretending to be fighting."

### THE NATCHEZ FREE TRADER

Has been revived again, under the auspices of T. A. S. DONIPHAN, Esq., he having purchased the entire establishment, Messrs. Besancon and Holliday having retired from the concern. The mechanical appearance of the paper is about the same as formerly, but it appears to us that a great falling off has taken place in the original matter, from the racy and entertaining style of our friends Forbes and its selections bespeaks rather more the demagogue than the caterer for public amusement or benefit.
