DONT BE MUM GENTLEMEN.

To Roger Barton, Esq.—1st. Do you propose the Subtreasury scheme as a measure for the relief of our suffering country?

2d. Are you in favor of an exclusive gold and silver currency?

3d. If so, do you reflect the opinion of Martin Van Buren on this subject?

To Jos. W. CHALMERS, Esq.

1st. Did you or not oppose the election of

People. The late attempt of the Locofocos to revolutionize public morals and the annihilation of the institutions of our country are calculated to arouse the pious as well as politician.

Mr Brownson a Government officer has lately come out and developed the "Great Utterior Principles" which is to be consummated in 1842. But says Mr. Brownson it will require physical force, to carry out the principles, and this standing army of Mr Van Buren's, was the "physical force" no doubt alluded to. It is not in the nature of the American Republic to subscribe to the doctrines of Fanny Wright, Benthamism or any other system of government which the licentious appetites alone are to be gratified. All these talented essays, written in the Democratic Review, and harangues by Mr Brownson, are nothing more than an attempt to prepare the public mind to undergo a revolution more bloody if possible than the one which afflicted France.
