 The course of instruction in this Institute will be thorough and efficient, and is destined to embrace the term of three years from the time of entering the Junior Department.

A beautiful Cabinet is already in possession of the faculty. A splendid Philosophical, Astronomical and Chemical apparatus will be procured for this Institute at the earliest convenience. Negotiations have already been entered into with an artist of Boston to furnish the same. As soon as circumstances will permit, a Library and Reading Room will be furnished for the use of the pupils.  
 A regular boarding house will be provided for young ladies from abroad as soon as the requisite accommodations can be obtained, where parents can, at their option, place their daughters, by which the immediate supervision of their teachers may at all times be procured. But for the present pupils can obtain board and lodging in private families.
