URBAN E. MEEK.

March 16th, 1842.

O ye lame and halt, who will ye blame if ye walk not!

WENTY-ONE HUNDRED! have been healed of all lameness, though for years crippled, limbs and cords contracted, shrivelled and withered—the body drawn nearly double, and the patients bed rid. All the suffering incident to rheumatism and its attendant ruin, Gout, &c. have been dissipated, and are now warranted cured; no matter how bad the case or how long it has stood, by Hewes' Nerve and Bone Liniment, and Indian Vegetable Elixer. This we assert without the fear or possibility of being contradicted. Will you try then those remedies, or will you suffer and die? We leave thinkers to answer for themselves—As to the proof, a mass too overwhelming has come to our notice, and may be seen where the articles are for sale.

## COWSTOCK'S HAY'S LINIMENT.

Certain cure for the following distressing complaints, established at New York and used in our principal hospitals, by eminent medical men, with the greatest possible success, (externally) in the following complaints:

For the Piles, for all Dropsy, all swellings of the extremities, rheumatism, acute and chronic, Lumbago and Sciatic, tender Feet, Corns, white Swellings, and all swellings of the Neck, Sore Throat by Cancers or Ulcers, Croup, Whooping Cough, Tightness of the Chest, especially in Children, all Bruises and Sprains; Scald Head, Scrofula in its worst stages, Foul Ulcers of the legs or other fungous sores, Fresh wounds, Chillsains, &c. &c.

It was the last death bed bequest of the celebrated Dr. Gridley, to his friend and attendant Solomon Hays.

Some cases of cures for which we have the testimony, which is too long to insert, are as follows:

Seven members of Congress; 2 of the Senate of the U. S. 2 Judges of the U. S.; 3 Governors of States; 23 members of the different State Legislatures, some 57 Editors and 79 Doctors—besides above, 3000 cures among respectable private citizens. These have come to the knowledge of the proprietors as having been cured of the Piles, many from five to twenty years the subjects of excruciating sufferings.

If then so many have thought it their duty to communicate on so delicate a disease, how many thousands must have been relieved and cured by this wonderful "death bed bequest!"

About one half of the above number are known to have been cured of Dropsy; Rheumatism, Burns, Fever Sores and Wounds of all kinds, by the same article—And of all this number no females are enumerated. So that the fair presumption is the number is more than doubled.

EDITED BY GEORGE P. MORRIS.

It has been said, that the American people are fickle in their attachments; that they change and variety, and willingly part with a friend for the novelty of a new acquisition.

As to the assertion. It is now more than 20 years since we, a mere boy at the time, commenced the publication of the New-York Mirror under all its changes and improvements, and of its early friends and subscribers have maintained it with a constancy no less flattering than it is complimentary to their personal attachments.

We now contemplate an important change in a commencement of our nineteenth year, on the 1st of January next. In making this change we are only following the example of many of our contemporaries, who, after publishing their papers several years, were under the necessity of changing this plan, that their subscribers might thereafter be confused about the beginning of the publication year.

But the more part of our change is, our intention of giving an Elegant Steel Plate Engraving Every Month of which we have already selected; and engravers engaged on several of them.

We have a number of artists employed, and have arrangements to have the plates printed months in advance of their publication, so that they may be thoroughly dried and sustain whatever by mail carriage.

No engraving more attractive or fascinating character, ever from the burin of an artist, than those now in preparation for the New York Mirror. They have never been equalled in this country, and are surpassed any where; at least, this is the opinion of numerous connoisseurs to whom we have shown the twelve that have been selected for the volume; and we have not the shadow of a doubt but that they will create a sensation, which are presented to our subscribers, who, we are confident, will be delighted with them.

We intend to give, monthly, a Wood-Cut representation and description of the latest Fashions of the season. These additions will cost us, exclusive of the present expenses, several thousands of dollars per annum.

This arrangement, while it will afford to our readers of the Mirror more than abundant compensation for the trifling price at which it is published, the plates could not be made at a lower price.
