Ho! ye red heads and Grey. PHENOMENON IN CHEMISTRY—EAST INDIA HAIR DYE.

Colors the Hair, and will not the Skin!!!
THIS dye is in the form of a powder which in plain matter of fact may be applied to the hair over night, the first night turning the lightest red or grey hair to a dark brown, and the second or third night, to a bright jet black. Any person may, therefore, with the least possible trouble, keep his hair any dark shade or a perfect black; with a positive assurance that the powder, if applied to the skin will not color it. There is no trouble in the moving it from the hair, as in all powders before made. By an occasional application, a person turning grey will never be known to have a grey hair. Directions complete with the article. There is no coloring in this statement' as one can easily test.

These facts are warranted by the gentleman who manufactures it, who is the celebrated chemist, Dr. Comstock, author of Comstock's Chemistry, Philosophy, and many other works well known and widely celebrated by the public.
