As they have been very indulgent to their patrons, and a dissolution having taken place, it becomes necessary that their business should be settled. Ho! ye red heads and Grey.

PHENOMENON IN CHEMISTRY--EAST INDIA HAIR DYE.

Colors the Hair, and will not the Skin!!!

THIS dye is in the form of a powder which in plain matter of fact may be applied to the hair over night, the first night turning the lightest red or grey hair to a dark brown, and the second or third night, to a bright jet black. Any person may, therefore, with the least possible trouble; keep his hair any dark shade or a perfect black; with a positive assurance that the powder, if applied to the skin will not color it. There is no trouble in the moving it from the hair, as in all powders before made. By an occasional application, a person turning grey will never be known to have a grey hair. Directions complete with the article. There is no coloring in this statement as one can easily test.

These facts are warranted by the gentleman who manufactures it, who is the celebrated chemist, Dr. Comstock, author of Comstock's Chemistry, Philosophy, and many other works well known and widely celebrated by the public.

This dye is sold by

strictly to first principles. It is founded on the belief that the people are capable of government. To this end, it encourages General Education as the accompaniment of universal Suffrage. It seeks to enlighten and reform, and to increase the prosperity and happiness of mankind. Hence, it is the general patron of the Newspaper Press, because, through its instrumentality, the greatest amount of useful information can be communicated to the greatest number in the shortest time and the least expense. Newspapers, well conducted, in a free country, exert an almost incalculable influence upon the public mind. Importance, of having, at some central point in North Mississippi, a permanent weekly journal, devoted to the good old cause of Democratic Truth, and expressing the opinions and feelings of its numerous and intelligent population, must be seen and acknowledged by all. From its central position in the midst of one of the largest and most fertile counties of the Chickasaw Purchase, together with its mail facilities, now ample soon to be enlarged, Holly Springs unquestionably presents equal, if not superior, advantages for the establishment of such a journal to any other town of the State.

It will be the aim of the editor to give his paper what its name would indicate—a Guard to the Constitution of the State and the United States; a Guard to the Democratic Institutions of the South, which are guarded by those sacred instruments; a Guard to the Union, and to the pure fundamental principles of Democracy, which can strengthen, sustain and perpetuate it; a Guard also to the literary taste and interests of the community in which it may circulate. Arrangements have been made to procure the earliest information of the proceedings of the State Legislature and of Congress. Correspondents, both from Jackson and Lexington City, have been secured, and they will spare no time, labour or expense necessary to render his paper worthy the patronage of the public.

TERMS.—The GUARD will be printed in fine imperial sheet, and furnished to subscribers at \$3 per annum, payable in advance or \$4 at the end of the year. The first number will be issued the first week in January 1842.
